Summary

Enthusiastic and dedicated student pursuing BE in Computer Engineering with a passion for web development. Proficient in HTML, CSS, JavaScript and React with a keen eye for detail and a creative approach to problem-solving. Possesses a solid understanding of Data Structures and Algorithms, enhancing the ability to develop efficient and scalable web solutions

Work experience

-Web Development Projects

As a dedicated and self-motivated student, I have undertaken several independent web development projects, showcasing my passion for creating innovative and functional solutions. Through these experiences, I have developed a strong foundation in web development technologies.

-E-Commerce Website

Successfully designed and developed a fully functional e-commerce website, implementing responsive design principles and ensuring a seamless user experience. Utilized HTML, CSS, React, Redux, Material icons to create dynamic and interactive product displays and Strapi for backend.

-React Pizza Delivery App

Link: <http://react-pizaa-app-devs-projects-b397786c.vercel.app>

Created a Pizza Delivery website to showcase my skills, emphasizing my proficiency in front-end development with the use of React, React-Query, Redux, and Tailwind for Responsive Design

Education

DIPLOMA IN COMPUTER ENGINEERING

Government Polytechnic of Gandhinagar

CGPA:8.16

Skills

Programming: Javascript

Programming: Node.JS

Internet: CSS

Internet: HTML

Internet: Responsive Web Design
